

## Programm

17.00-17.25 Sean Connel

AK Fucini, Goethe-Universität Frankfurt

Preliminary Cryo-EM Studies of the GMPPNP Stabilized YjeQ Ribosomal Complex

17.25-17.50 Axel Horn

AK Schumann, Paul-Ehrlich-Institut Langen

APOBEC3C-mediated intracellular defence against human LINE-1 retrotransposition is cytidine deaminase-independent.

17.50-18.00 Break

18.00-18.25 Jan Medenbach

AK Hentze, EMBL Heidelberg

Sex lethal binding to msl-2 mRNA uncovers a novel mechanism of translational control

18.25-18.50 Marcus Lechner

AK Hartmann, Philipps-Universität Marburg

Prediction of ncRNAs in bacteria: automation vs. manual inspection

**Afterwards: PIZZA and BEER**
