

## Program

17:00 - 17:25 Georg Auburger

Exp. Neurology, Goethe-Universität

Ataxin-2 adapts ribosomal mRNA levels and S6 phosphorylation to nutrient availability, with effects on protein synthesis and growth

17:25 - 17:50 Friederike Scholl

AK Steinhilber/Suess, Goethe-University

AK Radmark, Karolinska Institutet

Influence of 5-Lipoxygenase on miRNA processing

17:50 - 18:00 Break

18:00 - 18:25 Martin Hegensbach

Goethe-University

Differential scanning fluorimetry on RNA

18:25 - 18:50 Konstantinos Stellos

AK Dimmeler, Goethe-University

Role of RNA editing in angiogenesis

Pizza & Drinks
