

## Program

17:00 - 17:25 Christina Helmling

AK Schwalbe, Goethe-University

Mapping the conformational surface of transcriptional riboswitch intermediates at single nucleotide resolution

17:25 - 18:00 Wolfgang Kaiser

Dynamic Biosensors München

switchSENSE with Riboswitches – A characterization using a novel-optical technique

18:00 - 18:10 Break

18:10 - 18:35 Irina Epstein

AK Schuman, MPI for Brain Research

Versatile species of RNA populate neuronal dendrites and are regulated with development and plasticity

18:35 - 19:00 Patrick Hofmann

AK Boon, Goethe University

The long noncoding RNA H19 controls endothelial cell ageing and inflammation

19:00 Pizza & Drinks
